

UB280 & UB290 SERIES

- > Choice of beacon height
15cm (6") and 20cm (8")
- > 4 x AA-cell battery power source
30+ hours, low operating cost
- > Option to customize*
Brightness level, flash rate, color,
body color and shape

*Minimum order quantity may apply.

Beacon Operation Mode Model Options

UB280/UB290	Flash and steady-on
UB281/UB291	Flash only
UB282/UB292	Steady-on only
UB283/UB293	Dual color flash

Accessories not included

- Low battery indicator.
- Operation mode options: flash & steady-on, flash only, steady-on only, with single or dual colors or flashlight.
- Patented clear Fresnel lens offers high performance and 360-degree visibility.
- Tough and durable fluoro body with reflective strip provides increased visibility.
- Intelligent: adapts lighting brightness output to suit surrounding light conditions in order to save energy and improve visibility in daylight.
- Eflare beacons are specially designed to provide night vision protection and are less likely to be obscured by ground items such as snow, fallen branches, debris, fire hoses, etc.
- Unlike pyrotechnic flares, there are no toxic fumes and residue, they are reusable and easily switched on/off as required.

Specifications

Type	280	290	Flash Rate	175 fpm
Height	15 cm (6")	20 cm (8")	Peak Candela	70 to 85 cd
Weight	240 g	260 g	No. of LEDs	8 (up to 16 avail. as special order)
Rating	IP66		LED color options	other combos available as special orders
Battery type	4 x AA-cell Alkaline (not included)			
Battery life	30+ hours			

It is important to remember that battery life is indicative and depends on beacon operation mode, LED color/s, temperature and usage (day/night).
Peak candela is the peak flash luminous intensity measured in flash mode, which may vary from model to model.
